FOREWORD

AMBROSE ELSON was born on the 30th December, 1883, at Swanswell Street, Coventry. He was the second son of C. H. Elson, watchmaker, Freeman of the City of Coventry. Between 1886 and 1893 the family lived successively in Hornsey, Tottenham and Farringdon Street, London, but in 1893 they returned to Coventry, where Mr. and Mrs. C. H. Elson and a relative opened the laundry business in which Ambrose Elson was to spend the greater part of his life.

Mr. Elson went to school at Wheatley Street School, Coventry, from 1893-97. After leaving school, he was with the Dunlop Rubber Company for a few months, but in 1898 he joined his father and brother in the laundry business. It appears that it was about this time that he started to take an interest in war medals. In fact, in his cabinet we found a slip of paper dated 1898 with the statement that this was his first war medal, but unfortunately it is impossible to say just what that medal was.

A distant relative named Wadsworth had served in the Crimea and Ambrose Elson was shown his medal by one of his aunts. A letter from Mr. Wadsworth in the Crimea was in the possession of Mr. Elson at the time of his death, but the medal was not with it. At that time his means were small and the pawnbroker his main supplier of medals; he used to put a deposit on the medals so that he did not lose them and pay the balance by instalments. With the progress of the family business the means of acquiring medals increased and by 1914 the collection amounted to about 150 pieces.

His first wife having died in 1914, he joined the Army in 1916 in the R.A.S.C. and spent two years, 1917-1919, as C.Q.M.S. in Mesopotamia, during which he was twice mentioned in despatches. On demobilization he re-married. A considerable portion of the original collection of medals was sold and in the next few years no more additions were made.

It was about then that Mr. Elson first came to our shop in Duncannon Street to start buying further medals to augment his collection. From that time we were to see a great deal of him and his collection continued to grow, first under the guidance of Mr. Percy Baldwin and in later years he relied largely on Mr. Atkinson for help. Many of his very rare pieces came from our stock, but he also took much pleasure in attending the important medal sales, most of which were held at Glendining & Co.'s rooms. One of the first sales which attracted his attention was the five-day medal sale of the Phillips collection in 1925, and he bought extensively from the Hamilton Smith sale in 1927, and it was at this period that the foundation of the present collection was laid. From this point we have watched the collection grow until it reached its present proportions.

All who came into contact with him in the medal world were fully aware of his great knowledge of the history of the medals in his collection and his genial manner and generosity were fully appreciated by everyone.

The collection is a very representative one and it is the finest collection that has been offered for auction for very many years. It includes many very rare items, as will be readily seen from the catalogue and the three plates of illustrations.

His favourite regiment was, of course, his county regiment, the 6th Foot (Royal Warwickshire Regiment). The medals to this regiment are very well represented, especially M.G.S. 1793-1814, including almost every combination of battle clasp that the regiment could win. All other campaigns in which the regiment took part are well represented. These are divided between the two sales.

In cataloguing the collection we have had very much in mind that it was the owner's wish that a permanent record of his many years of enthusiastic collecting would be available to collectors of the future. This is also a primary wish of his family. In order to achieve this we have adopted a lay-out that we hope will form an easy reference to the increasing number of those who are interested in this section of numismatics. It will be seen that the lay-out, as far as possible, follows closely to the order of precedence that exists at the present time for Orders, Decorations and Medals. Decorations and gallantry awards comprise the first section of this, and these are followed by campaign medals in chronological order. Groups are similarly listed, any with Orders and Decorations being placed before those that consist solely of campaign medals. The magnificent collection of Military General Service Medals, in which Ambrose Elson particularly specialised, together with Army Gold Cross and Army Gold Medals, are entered under their regiments, and this also applies to his fine representative muster of the units that fought at Waterloo. With the more important lots we have endeavoured to include as much as possible of the biographical and naming details of the recipient.

The second and final part of the collection is now being catalogued and includes a similar selection of rare pieces with the M.G.S. and Waterloo issues being continued from the 40th and 30th Regiments respectively.

At the owner's express request, much of the work of preparing both catalogues has been undertaken by Mr. R. E. Atkinson.

- Supplement to the London Gazette of Tuesday, 27 May, 1941*

Bombs demolished houses on both sides of a road. A man was trapped in a crater on the edge of which was a fiercely burning building. At grave risk Wickens and Kerr attempted a rescue. The wind changed and they were driven off by the flames. The two men succeeded in freeing several persons who were trapped in cellar shelters, and whose houses were burning above them. They then returned to the crater and made further attempts to release the trapped man. The debris was very loose and every movement might have precipitated them to the bottom, bringing tons of debris and rubble down on them. Mr. Kerr, by exerting all his strength, managed to move some heavy beams which pinned the casualty. He supported these with his body and this enabled Mr. Wickens to obtain a firm hold on the victim and between them they got him out.

PRICED CATALOGUES

Medals

*A*FTER each sale these catalogues are issued with the prices realised printed in the margin opposite each lot, thus giving at a glance a reliable guide to values.

The final test of value must always be auction prices rather than the figures given in books of reference for changing times and fashions soon render the latter obsolete and misleading.

On the average we issue twelve Coin catalogues a year, some of which are usually of sales of important collections. The **priced catalogues** are posted to subscribers as soon as ready. usually about three weeks after the date of sale and the subscription is

TEN SHILLINGS per annum
